FULL STACK DEVELOPER & GENAI ENGINEER

Specialist Programmer at **Infosys** with a B.Tech in Computer Science and Engineering and hands-on experience building **full-stack applications, AI systems, RAG solutions, and LLM-powered platforms**. Strong across **MERN, Django REST Framework, React, Agentic AI, LangGraph, and LLM serving**, with end-to-end ownership of systems used by **4,000+ users** and real academic deployments. National hackathon finalist with a track record of solving complex engineering problems under tight constraints.

TECHNICAL SKILLS

Languages	: Python, TypeScript, JavaScript, SQL, HTML5, CSS3
Frameworks	: React.js, Node.js, Express.js, Django, Django REST Framework, FastAPI
AI / GenAI	: Agentic AI, LangGraph, LangChain, RAG, Prompt Engineering, Llama 3, vLLM, Triton Inference Server
Databases	: MongoDB, PostgreSQL
DevOps / Tools	: Docker, Linux, Bash, Git, GitHub, Postman

EXPERIENCE

Specialist Programmer Infosys

Aug 2025 – Present
India

- Developing expertise in **MERN full-stack engineering** and **Agentic AI** as part of the Specialist Programmer role.
- Working across modern web application development and AI engineering concepts including **React, Node.js, APIs, LLM workflows, and agentic systems**.

SELECTED PROJECTS

chat.karunya.edu

Llama 3, vLLM, Triton

- Built almost the entire campus AI application using **Llama 3**, integrating the application with **vLLM and Triton Inference Server** for LLM serving.
- Reached **4,000+ logins within the first week** after campus deployment and received institutional recognition for the system.

CodeTutor

Django REST Framework, React

- Designed and built the complete platform independently using **Django REST Framework and React** to manage a programming laboratory for **70 students**.
- Automated the complete workflow from **code execution and evaluation to report generation and viva management**.

SIH 2023 – Threat Detection System

Python, Zeek, Unbound DNS

- Built an asynchronous verification layer using **httpx and BeautifulSoup** during a high-pressure final sprint to correct ML false positives involving educational and social domains.
- Completed the fallback implementation in approximately **3 hours**, validating live webpage metadata in **under 350 ms** before the final jury presentation.

ACHIEVEMENTS & LEADERSHIP

- Smart India Hackathon 2023 – National Grand Finale Finalist:** Selected from **44,000 national teams**.
- KAVACH 2023 – National Grand Finale Finalist:** Selected from **3,800 participating teams** in a national cybersecurity hackathon.
- Tamil Nadu Police Hackathon 2023 – State Grand Finale Finalist:** Selected from **300 state teams**.
- Web Development Club Lead & KHacks Core Team Member:** Delivered technical workshops to **200–400 participants** and contributed to an AI education initiative reaching **500+ government-school students in a single day**.

EDUCATION

Karunya Institute of Technology and Sciences
B.Tech in Computer Science and Engineering

Coimbatore, India
2021 – 2025

CERTIFICATIONS

- **Angular Professional Certification** – Infosys Lex
